

The image shows a Kali Linux terminal window with a dark theme. The window title is 'kali@shreya: ~ (on shreya)'. The terminal displays a series of commands and their outputs. The first command is 'touch newfile.txt'. The second is 'ls', which lists the contents of the home directory, including 'Desktop', 'Documents', 'Downloads', 'Music', 'newfile.txt', 'Pictures', 'Public', 'Templates', 'test', 'testdir', 'unauthorized_login_detection', and 'Videos'. The third command is 'pwd', which returns '/home/kali'. The fourth command is 'wget https://example.com', which downloads a file from the example.com website. The output of the wget command shows the progress of the download, including the URL, the file size (513 bytes), and the download speed (6.53 MB/s). The terminal window also has a menu bar with 'Session', 'Actions', 'Edit', 'View', and 'Help'.
